RADIATION SAFETY

Radiation can be defined as energy traveling through space. Some forms of radiation are essential to life, but over exposure to some sources can also cause tissue damage.

Radiation sources are found in a wide range of workplace settings. The use of radioactive materials is regulated by the Canadian Nuclear Safety Commission (CNSC) which sets requirements for is use, possession and disposal.

If radiation is not properly controlled it can be potentially hazardous to the health of workers.

Training Solution – Online *Radiation Safety* Course

This course will provide participants with a basic awareness of radiation hazards and safe work practices to apply in order to reduce the risk of over exposure.

Course Overview

Upon completing **Radiation Safety**, participants should:

- Recognize the different types of radiation
- Understand how radiation interacts with matter
- Understand the biological and health effects of radiation
- Learn how to protect themselves from exposure to radiation
- Become familiar with legal obligations with respect to radiation

Online Course Offers Convenience and Efficiency

These courses are powered by the **Link2eLearning** LMS (Learning Management System), so you can track course progress and completion. Each training solution provides quizzes, a final exam and a course completion certificate.

BENEFITS OF LINK2ELEARNING

All of Link2eLearning's online courses are offered through our learning management system (LMS).

Link2eLearning online learning is:

- ✓ **Easy to use** – for delivering and tracking employee training across the organization - *providing instant, accurate reporting for workplace audit*
- ✓ **Globally accessible** – available anytime, anywhere there is Internet access
- ✓ **Cost-effective** – eliminating the cost of facility rental, travel cost and lost time required for instructor-led training
- ✓ **Flexible** – courses and administrative functions can be scheduled to suit individual needs
- ✓ **Consistent** – enabling you to provide standard training material to all employees across the organization

LMS FEATURES

Employees can:

- Self-register on a secure site
- View and complete the course at their convenience
- Participate in online quizzes
- Produce certificates of completion

Administrators can:

- Monitor participation
- Easily track results
- Export data
