PERSONAL PROTECTIVE EQUIPMENT (PPE) SELECTION, USE AND CARE

PPE is personal protective equipment worn by an individual to minimize exposure to specific occupational hazards. Personal protective equipment is an essential safety component when there is the potential for worker injury due to hazard exposure or where a physical, chemical, biological or electrical hazard exists.

PPE is designed to protect anyone who may be exposed to these hazards from injury or ill health.

This online course is designed to provide participants with knowledge of personal protective equipment, or PPE, requirements and to ensure that all employees, contractors and visitors are equipped with proper PPE to reduce exposure to hazards..

Who should take this course?

This course will assist individuals who work with or around hazards and require the use of personal protective equipment. **NOTE:** Completion of this course does not provide comprehensive training for every type of protective equipment. Employees required to use PPE must take further, in-person training for each specific piece of equipment.

Course Overview

Upon completing this course, participants should:

- Understand basic PPE requirements including; eye protection, proper footwear and clothing, and hand, hearing and head protection
- Be able to identify when there is a need for additional PPE
- Understand procedures for the proper selection, use, inspection and maintenance for PPE
- Be familiar with worker and supervisor responsibilities relating to PPE, along with all relevant legislation
- Be aware of the limitations of some aspects of PPE.
