

## ELECTRICAL SAFETY

Since the mid-1800s, electricity has been an essential part of our everyday lives. It lights up our homes, cooks our food, and powers our computers and workplace equipment. However, we take electricity for granted and often forget about the danger it can pose when it is not properly handled.

Failure to follow effective electrical safety procedures can result in serious and even fatal injuries including falls due to electric shock, electrical and thermal burns, loss of muscle control, electrocution, etc.

It is therefore important for employees to know and fully understand the potential dangers that electricity can pose in the workplace and what can be done as part of a daily work routine to reduce their risk from electrical hazards.

### Training Solution – Online *Electrical Safety* Course

This 45 minute course will provide employees and supervisors with a basic awareness of electrical safety and control measures that can prevent accidents and injury due to electrical hazards. **Please note: this course is NOT designed to teach or qualify participants to work on electrical equipment.**

### Course Overview

As part of **Electrical Safety**, participants will:

- Understand the fundamentals of electricity
- Become familiar with common electricity related definitions
- Become aware of the common injuries that can result from electrical exposure
- Identify basic workplace electrical hazards
- Learn about control measures for workplace electrical hazards

### Online Course Offers Convenience and Efficiency

These courses are powered by the **Link2eLearning** LMS (Learning Management System), so you can track course progress and completion. Each training solution provides quizzes, a final exam and a course completion certificate.

## BENEFITS OF LINK2ELEARNING

All of Link2eLearning's online courses are offered through our learning management system (LMS).

Link2eLearning online learning is:

- ✓ **Easy to use** – for delivering and tracking employee training across the organization - *providing instant, accurate reporting for workplace audit*
- ✓ **Globally accessible** – available anytime, anywhere there is Internet access
- ✓ **Cost-effective** – eliminating the cost of facility rental, travel cost and lost time required for instructor-led training
- ✓ **Flexible** – courses and administrative functions can be scheduled to suit individual needs
- ✓ **Consistent** – enabling you to provide standard training material to all employees across the organization

## LMS FEATURES

### Employees can:

- Self-register on a secure site
- View and complete the course at their convenience
- Participate in online quizzes
- Produce certificates of completion

### Administrators can:

- Monitor participation
- Easily track results
- Export data
