### WHMIS (GHS) INTRODUCTION

The Workplace Hazardous Materials Information System (or WHMIS) is in place to govern the safe use, storage, handling and disposal of hazardous products within Canadian workplaces.

In 2015, the Government of Canada amended the *Hazardous Products Act* and created the *Hazardous Products Regulations* to modify WHMIS in order to incorporate the **Globally Harmonized System** of Classification and Labelling of Chemicals (or the GHS). The modified WHMIS is known as WHMIS 2015.

This online course is designed to provide workers with an overview of the Workplace Hazardous Materials Information System, as well as specific requirements of WHMIS 2015.

During the WHMIS 2015 transition period, our WHMIS (GHS) Introduction also offers an additional chapter on specific requirements of WHMIS 1988. This content will be optional based on a Knowledge Check at the beginning of the chapter.

### Who should take this course?

Workers within Canadian workplaces who work with, or may be exposed to, hazardous products under WHMIS.

### Course Overview

After completing the course, participants should be familiar with the following:

- An overview of WHMIS
- WHMIS-related legislation and regulations
- The roles and responsibilities of the supplier, employer and employee
- WHMIS and workers' rights
