

# BASICS OF SUPERVISION TRAINING

This training will help you effectively integrate safety into your work environment so that you can achieve both.

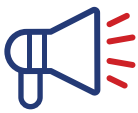

## Course Overview

This training is focused on helping supervisors integrate safety into their environment without compromising their performance goals. In Ontario, supervisors have legal responsibilities under the Occupational Health & Safety Act to provide a safe work environment and direct workers to perform work safely. Employers are required to hire

competent supervisors and provide them with the resources to create and maintain a safe working environment in addition to meeting their productivity and quality goals for their business.

This training will help you effectively integrate safety into your work environment so that you can achieve both.
